“ Democratizing & Decolonizing Publishing ”

# The Broken Traditional Model

Why African writers were consistently underserved

## 18-24 Months

Manuscript to publication

## 99% Rejection

At major publishers

## 10-15% Royalties

Publishers keep 85-90%

## African Author Barriers

Geographic distance

Currency complications

Limited infrastructure

Exploitative terms

# Our Founding Vision

January 2025 • Changing the narrative entirely

## The Questions We Asked

- ❓ What if technology could eliminate every traditional publishing barrier?
- ❓ What if an author in Cape Town had the same distribution power as a major New York publisher?
- ❓ What if the entire process from manuscript to global availability could happen in days, not years?

## Our Founding Team
